TO DAUGHERTYDeclares Warning on Strike Is
Premature.LEADER SEES THREAT
OF COERCION IMPLIEDSays Operators Commit Violence
by Refusing To Carry Out
Their Contract.

Marion, March 24.—Attorney General Harry Daugherty's warning to the miners against violence during the strike set for April 1 was interpreted by William Green, secretary of the United Mine Workers, as indicating that the forces of the government would not be used against the strikers for the benefit of the operators, who, Mr. Green asserted, constitute the only group which has committed violence.

The impression which can be gathered from an analysis of the attitude of the government," said a formal statement issued by Mr. Green, "is that, if necessary, the miners will be coerced and the forces of the government will be used against them in order to guarantee a production of coal, but the coal operators may commit violence by refusing to carry out their contract and at the same time secure the protection of the government."

In addition to his formal statement regarding the attorney general, Mr. Green announced that the strike vote cast by soft coal miners this month showed 95 per cent of the miners in

favor of a walkout April 1 unless a new wage agreement had been made by that date. Every soft coal field, Mr. Green said, favored the strike.

In his statement replying to Mr. Daugherty's warning, Mr. Green said: "Attorney General Daugherty is certainly premature in issuing a warning to the miners against violence. There is no disorder in sight among the coal miners nor is any violence threatened. The suspension will not take place for almost 10 days. If the attorney general wants to put down violence why does he not proceed against the coal operators, who publicly admit violation of an agreement? They constitute the only group which thus far has committed violence."

President Lewis of the mine workers issued a statement after a three-day session of the mine owners and workers' wage arbitration committee, which ended without any agreement which would halt the impending strike of 600,000 coal miners.

Lewis charged that "big business and so-called Americanism organizations" are engaged in an attempt to crush organized labor. Among the foes of the United Mine Workers and other affiliated unions, he said, were the National Chamber of Commerce, the United States Steel corporation, Association of Mine Operators and sponsors of the American plan, which he characterized as "wholly un-American."

Corn Exports Increase.
Washington, March 24.—The export of corn during February increased more than 200 per cent over the same month last year, while exports of wheat fell off about 350 per cent from February, 1921. The February exports of corn amounted to 22,632,216 bushels, of a value of \$14,020,000, compared with 8,144,346 bushels, valued at \$6,015,563 in February, 1921.

Gallipolis Hospital For Vets.
Gallipolis, O., March 24.—Dr. G. G. Kineon, superintendent of the Ohio hospital for epileptics here, was notified that his institution has been selected by the veterans' bureau as the place where 400 ex-service men, many of whom are suffering with epilepsy, will be cared for.

BEFORE EXECUTIONSpends Most of Last Day Weep-

ary Last Big Meal.

Columbus, March 24.—Roy Chamblin, 27, of Portsmouth, was executed at midnight in the penitentiary. He made no statement as he went to his death.

Shortly before he entered the death chamber, Chamblin confessed he murdered John W. Newman and Miss Louise Doyle, Oct. 21, 1921, in a lonely hut seven miles north of Portsmouth. He admitted robbery was the motive for the double murder.

Repeating former statements that he had fired the shots after someone had thrown rocks at him from the shack where the bodies were found, Chamblin, according to Chaplain T. O. Reed, declared he had held up Newman and Miss Doyle along the road, near the house, took their valuables and, after compelling them to enter the house, shot them, because he feared he had been identified. Chamblin spent most of his last day weeping. He did not order the customary last "big meal" granted to men about to receive the death penalty.

PACIFIC TREATY
IS RATIFIED

Continued from Page One.
luge, previously made, should be
terminated was defeated by a vote
of seventeen to sixty-four.

Whole World Looks On.
Washington, March 24.—The at-
tention of the whole civilized world
was focused upon the United States
senate today as it prepared to ratify
the four power Pacific treaty, by
which the United States, Great Brit-
ain, Japan and France are bound to-
gether in an international agreement
for their joint cooperation in
"the region of the Pacific ocean."

A distinguished and cheerful gath-
ering jammed the senate galleries as
the gavel of Vice President Coolidge
called the senators to order at the
stroke of 12 o'clock.

First Strength Test
The senate had only been in ses-
sion a few minutes when the first
test of strength between the treaty's
supporters and opponents came
swiftly after Senator Robinson
Democrat, of Arkansas, demanded
a roll call on his reservation pro-
viding that "each of the high con-
tracting parties will refrain from
entering into or being a party to
any secret agreement or understand-
ing with any other power or powers
during the life of this treaty."

The Robinson reservation was
quickly defeated by a majority vote
of thirty-two to sixty-one.

The first step toward ratification
of the treaty came swiftly when Ar-
ticle I of the pact was adopted by
an overwhelming vote. The vote
was seventy-four to fifteen.

The vote was a majority one. It
occasioned little surprise, as op-
position to the treaty had centered on
Articles II and III.

Brandegee Reservation.
Senator Lodge, the Republican
leader, directed attention to the re-
solution of ratification with the
Brandegee "no alliance" reservation
attached to it.

The resolution read:

"Resolved—Two-thirds of the sen-
ators present concurring therein—
that the senate advise and consent
to the ratification of executive six-
ty-six."

seventh congress, second session, a
treaty between the United States,
the British empire, France and Ja-
pan relating to their insular posses-
sions and insular dominions in the
Pacific ocean concluded at Washing-
ton, December 18, 1921, subject to
the following resolution and under-
standing, which is hereby made a
part and condition of this resolu-
tion of ratification.

The United States understands
that under the terms of the pre-
amble or under the terms of this
treaty there is no commitment to
armed force, no alliance, no obliga-
tion to join in any defense.

The Robinson reservation intent-
ed to bring into the treaty all other
nations having or claiming to have
an interest in the Pacific and to
thereby to transform the pact into a
Pacific league of nations was de-
clined by a vote of thirty-three to
sixty-one.

Recorded Against.

Those voting against the ap-
proval of Article I were: Borah,
Idaho, France, Maryland, Johnson,
California, and LaFollette, Wiscon-
sin, Republicans; four, and Ash-
hurst, Arizona, Culberson, Texas,
Klar, Utah, Reed, Missouri, Robin-
son, Arkansas, Sheppard, Texas,
Shields, Tennessee, Watson, Georgia,
Gerr, Illinois, and Harris, Georgia,
and Stanley, Kentucky, Democrats.
A reservation offered by Senator
Shields, Democrat of Tennessee, in-
tended to forbid "participation" by
the United States in the settlement
of political questions and "conten-
tions of foreign nations," was re-
jected by a vote of thirteen to seven-
ty-three.

A proposal by Senator Johnson,
Republican of California, to amend
Article II of the treaty was rejected
by a vote of twenty-six to sixty-five.

Johnson proposed the insertion
of the term "peaceful"—"peaceful"—
between the words "most efficient" and
"measures" in the article.

Article II of the treaty, the storm
center of the fight against the pact,
was adopted by a majority vote of
sixty-six to twenty-eight.

Rejection Foreseen.

Defeat of the Robinson reserva-
tions, upon which the treaty's op-
ponents had centered their fight to
alter the pact, foreshadowed the re-
jection of all of the long string of
pending reservations.

The majority vote showed a num-
ber of Democratic senators voting
for reservations who had pledged
themselves to vote for ratification.
The treaty opponents were defeated
again when they tried to force over
a textual amendment to the pact.

The amendment sponsored by
Senator Hitchcock, Democrat, of Ne-
braska, was intended to insert the
term "unprovoked" before the words
"aggressive action" in Article II of
the treaty. It was rejected by six-
ty-three to twenty-nine.

The adoption of Articles I and II
and the voting down of a series of
reservations and amendments fore-
shadowed complete victory for the
administration forces lined up be-
hind the pact.

The voting continued with re-
markable celerity with the senate
sitting in "the committee of the
whole" before proceeding under the
rules to the final vote on ratifica-
tion in the senate itself.

Brilliant Picture.

The senate chamber presented a
brilliant picture as the voting pro-
gressed. Mrs. Harding occupied the
presidential box surrounded by a
group of cabinet ladies. She fol-
lowed every move on the floor. The
elite of capital society filled the
spectators' galleries even to the aisles.
The diplomatic gallery was also
filled every embassy and legation
in Washington being represented,
either by the envoy himself or some
other official.

Di Szo, the Chinese minister and
Baron Carlier de Ma chienne, of
Belgium, were seated well down
front.

An amendment offered by Senator
Ried, Democrat, of Missouri, to give
each of the four powers the right
to withdraw from the treaty upon
giving the twelve months notice at
any time, instead of at the end of
ten years, as provided by the pact,
was rejected by a vote of twenty-
nine to sixty-four.

Island Reservation Rejected.

Washington, March 24. A reser-
vation to the four power Pacific
treaty providing for the granting of
independence to the Philippines
within ten years after ratification of
the pact, was rejected by the sen-
ate this afternoon.

The reservation was proposed by
Senator La Follette of Wisconsin,
and was defeated by a vote of six-
ty to twenty-seven.

Easter—As A Fashion Date

THE significance of Easter as a fashion festival has its origin in customs far removed from the sacred associations of the season that make it the holiest observance of the Christian religion.

The word Easter is a survival of Eostre, the name of the Anglo-Saxon goddess of Spring, to whom the month corresponding to our April was dedicated. It marked the glorious arraying of Nature in new finery after the drab days of winter, and so quite naturally came to bear the same relation to human attire.

UNIFORM RANK COMPANY MAKES PLANS FOR SOCIAL

Pythian Company Receives Two
Applications.

DRUIDS CONFIR THIRD
DEGREE ON A CLASS

Royal Neighbors and Woodmen
Plan Social and Entertainment
for March 30.

Marion Company, No. 15, Uniform Rank, Knights of Pythias, met Thursday night with a large attendance and received two applications for membership. Plans were completed for a social to be held next Thursday evening for the members and their families.

Have Sing Social.

The third degree was conferred on a class and one application for membership was received at a largely-attended meeting of the Druids, Thursday evening. Following the meeting a stag social was enjoyed. Plans were made to work the first degree next Thursday evening.

Plan for Joint Meeting.

A well-attended meeting of the Royal Neighbors was held in the Junior Order hall on west Center street, last night. Five applications were received and one candidate was initiated. Plans were made for a called meeting of the Royal Neighbors, Thursday afternoon, March 30. In the evening of that day the Royal Neighbors will meet with the Modern Woodmen of America and a social and entertainment will be held. The next meeting will be Thursday, April 12.

Foresters Have Social.

The meeting of the Foresters last night was well attended. Business occupied the entire lodge session, after which a social was held and refreshments were served. Mrs. E. P. King gave a reading. The next meeting will be Thursday, April 13.

Special Conclave.

A special conclave of Marion Commandery, No. 36, Knights Templar, was held at the Masonic temple, Thursday evening and the order of temple was conferred.

Another special conclave will be held Tuesday evening, March 28, when the order of temple will be given and the annual inspection held.

Meeting Called Off.

Owing to the sickness of a number of the members, the ladies' auxiliary of the Owls did not hold a meeting Thursday evening. The next meeting will be held in two weeks.

Wayside Lodge Banquet.

Wayside Lodge, No. 864, I. O. O. F., held a banquet and entertainment in the lodge hall Thursday evening. Covers were laid for over 200, the spread being prepared by Wayside Rose Rebekah lodge members. The entertainment and spread was arranged by the losing side in the membership contest and the members of the teams assisted in making it a success. Crane's orchestra rendered a program during the banquet.

Following a short business session of the lodge, an entertaining program was opened. T. E. Bolander presided as chairman of the evening and after a few remarks the orchestra rendered a selection and responded a number of times during the evening. The Osmond Male quartet made a hit with its numbers, especially those of the comedy nature.

G. R. Henney, chairman of the transportation committee, made a report on the proposed trip to Co-

lumbus April 26 at which time the team from Washington, D. C., will confer the first degree on a class of about 1,000 candidates. The work will be put on in the coliseum at the fairground and thousands of Odd Fellows from Ohio and surrounding states will be in attendance. Arrangements are being made for special cars to carry the Marion county delegations and each lodge will make an effort to take one or more candidates.

MINE LEADERS HOLD SESSION

Continued from Page One.

meeting, rumors of discussion with the ranks were numerous, but among the early arrivals there were none who indicated any intention of supporting Frank Farrington, president of the Illinois miners, who has been credited with opposition to the plans of the international president. Farrington has been quoted as saying the strike call sent out under the signature of the international officers was "premature."

Illinois operators had sought a separate agreement with their men, and Farrington, who late in arriving, is credited with favoring such action. Denies Backing Farrington.

Lee Hall, president of the Ohio miners, upon his arrival here this morning, denied reports that his following would back Farrington in seeking separate agreements.

"Only a settlement which embraces the central competitive field will suit Ohio miners," Hall declared.

"We never again will submit to a settlement of the scale along state lines. That plan was tried in 1914 and near disruption to the union followed. We are with President Lewis."

Like statements were made by miners' officials from Iowa and the union fields of West Virginia who were also among the early arrivals.

The central competitive field embraces the mining districts of Illinois, Indiana, Ohio and western Pennsylvania and the heads of wages agreed upon for this district forms the basis for outlying districts.

William Green, of Indianapolis, international secretary-treasurer, declared upon his arrival here that the meeting would last two days.

"The committee will approve the call for a strike issued by the international officers. With many men of many minds gathered, there may be differences of opinion. It would be too much to expect otherwise, but there will be a united front presented when the issues are made up."

Says Strike Will Be Orderly.

Washington, March 24.—The strike of 600,000 anthracite and bituminous coal miners scheduled to begin April 1, will be orderly, labor leaders here today asserted.

"The miners have been ordered to strike to the limit, but they have likewise been ordered to strike clean," James Lord, head of the mining department of the American Federation of Labor, declared.

Government officials who are handling the strike situation, expressed themselves as being confident that the suspension of coal mining would not be followed by violence. They pointed to the fact that in the strike call issued by the miners' leaders, it was stipulated that ten thousand men would be retained in the various mines to keep the properties in good order and this is regarded as an evidence of good faith on the part of the miners.

Non-Union Fields Threatened.

Washington, March 24.—Non-union coal fields in West Virginia and Maryland are threatened with a railroad strike as the coal mines complete plans for a nation-wide walkout April 1.

A general walkout is scheduled on the Western Maryland railroad—a Rockefeller line—which taps some of the richest coal fields in the country in western Virginia and western Maryland.

Vote for Strike.

The American and all the American Federation of Labor railroad unions with the single exception of clerks and including the six shop crafts, oilers, telegraphers and maintenance of way men, have voted for a strike, it was learned today. They may walk out at midnight tomorrow, labor officials here say, or may wait until three or four days preceding the miners' walkout.

The strike, an authorized one, will sound the tocsin of the railroad workers the country over in a new way with the railroads, according to leaders here.

Transportation of coal from non-union coal fields tapped by the railroads will be crippled at a critical period when supply from those fields will be most needed.

Outlaw Strikes along the Erie railroad are also threatened.

Loading All Kinds of Cars.

Pottsville, Pa., March 24.—All kinds of cars that will contain coal are being utilized and being loaded with anthracite in the last few days before the suspension of work by the miners on April 1.

Repair shops of the Pennsylvania and the Philadelphia & Reading railroads are working at top speed outfitting coal cars in order and abandoning work on all others until the end of the month. An enormous amount of anthracite is being sent out of this region daily.

Approve Strike Call.

Cleveland, March 24.—Practically unanimous approval of the strike call issued by John L. Lewis, president of the United Mine Workers of America, was indicated here today when the general policy committee of the miners' union, with representatives present from every organization held in the United States and parts of Canada, went into session behind closed doors at the Hollenden hotel.

Frank Farrington, incumbent president of the Illinois operators, furnished the only discordant note, he

REAL FIGHT ON BONUS TODAY

Continued from Page One.

The vote was sixty-four more than the two-thirds majority necessary for passage of the measure under the parliamentary procedure selected by Republican leaders for the expressed purpose of preventing the Democrats from offering a motion to reconsider.

Party lines disappeared both in the general debate and on the final roll call, 242 Republicans, many Democrats and one Socialist supported the bill and forty-two Republicans and twenty-eight Democrats voted against it.

In only two important particulars does this measure differ from the one passed by the house two years ago and shelved in the senate last July. The original cash bonus option was eliminated and the bank loan provision of the adjusted service certificate substituted.

Politics was injected into the debate several times and resulted in some warm exchanges. Representative Poy, Democrat, North Carolina, declared what he considered as the efforts of the majority to make the bonus a partisan issue, while Representative Campbell, Republican of Kansas, and Lonesworth, Republican of Ohio, assailed the minority report on the bill filed by Representative Kitchin of North Carolina, Democrat leader.

As passed by the house, the bonus bill would provide for immediate payments to veterans whose adjusted service pay would not exceed \$50 and would give other veterans the option of these four plans:

Service Certificate. Adjusted service certificates, with provisions authorizing loans by banks in the first three years after next October 1, and by the government thereafter; the certificates to run for twenty years and to have a face value at maturity of the amount of the adjusted service credit at the rate of one dollar a day for domestic service and \$1.25 a day for foreign service, increased by twenty-five per cent, plus interest at the rate of four and one-half per cent, compounded annually.

Vocational training aid after January 1, 1933, at the rate of \$1.75 a day, total payments not to exceed, however, 140 per cent, of the adjusted service credit.

Farm and home aid under which veterans who buy or improve farms or homes would be paid after July 1, 1933, a sum equal to their adjusted service credit increased by twenty-five per cent.

Land settlement, under which lands would be reclaimed under the supervision of a special board and farm units established for sale to the veterans at a price fixed by the board less the amount of the adjusted service credit due the purchasers.

OHIO INDUSTRY IS LOOKING UP

Continued from Page One.

Jacobs said the capacity of the Sandusky plant is to be doubled at once, and that thirty more girls will be put to work.

Gardening Rooms.

Port Clinton, March 24.—More than 200,000 tomato plants are to be grown at the Womer greenhouse here this spring for the Gypsum Canning company. These plants will be distributed among growers.

The indications are that there will be a large acreage of tomatoes as many new growers have signed for acreage for this year.

At Oak Harbor the Weller company will also have a big acreage for its canners.

REAL FIGHT ON BONUS TODAY

Continued from Page One.

The vote was sixty-four more than the two-thirds majority necessary for passage of the measure under the parliamentary procedure selected by Republican leaders for the expressed purpose of preventing the Democrats from offering a motion to reconsider.

Party lines disappeared both in the general debate and on the final roll call, 242 Republicans, many Democrats and one Socialist supported the bill and forty-two Republicans and twenty-eight Democrats voted against it.

In only two important particulars does this measure differ from the one passed by the house two years ago and shelved in the senate last July. The original cash bonus option was eliminated and the bank loan provision of the adjusted service certificate substituted.

Politics was injected into the debate several times and resulted in some warm exchanges. Representative Poy, Democrat, North Carolina, declared what he considered as the efforts of the majority to make the bonus a partisan issue, while Representative Campbell, Republican of Kansas, and Lonesworth, Republican of Ohio, assailed the minority report on the bill filed by Representative Kitchin of North Carolina, Democrat leader.

As passed by the house, the bonus bill would provide for immediate payments to veterans whose adjusted service pay would not exceed \$50 and would give other veterans the option of these four plans:

Service Certificate. Adjusted service certificates, with provisions authorizing loans by banks in the first three years after next October 1, and by the government thereafter; the certificates to run for twenty years and to have a face value at maturity of the amount of the adjusted service credit at the rate of one dollar a day for domestic service and \$1.25 a day for foreign service, increased by twenty-five per cent, plus interest at the rate of four and one-half per cent, compounded annually.

Vocational training aid after January 1, 1933, at the rate of \$1.75 a day, total payments not to exceed, however, 140 per cent, of the adjusted service credit.

Farm and home aid under which veterans who buy or improve farms or homes would be paid after July 1, 1933, a sum equal to their adjusted service credit increased by twenty-five per cent.

Land settlement, under which lands would be reclaimed under the supervision of a special board and farm units established for sale to the veterans at a price fixed by the board less the amount of the adjusted service credit due the purchasers.

Port Clinton, March 24.—More than 200,000 tomato plants are to be grown at the Womer greenhouse here this spring for the Gypsum Canning company. These plants will be distributed among growers.

At Oak Harbor the Weller company will also have a big acreage for its canners.

The people do not want any more radicals just now. They declare it has been a Liberal premier that got them into war.

LABOR UNION TO AID COAL MINERS

Central Body Adopts Resolution Wednesday.

The following is the text of the resolution adopted by the Central Labor union Wednesday night:

Whereas, The threatened strike of miners and railroad employees is rapidly assuming definite form, and because of its scope and magnitude it is to be considered a grave issue before the people of this country, and operators and the railroad employees become a reality, it will be, because of the absolute refusal of the mine operators and the railroad employers to recognize the lawful rights of their employees, and because the aforementioned employers have used this period of depression to heat down their employees to a point of bare existence, therefore be it,

Resolved, That the Central Labor union of Marion, Ohio, reaffirm its allegiance to the cause of the workers, and that this union use effort of which it is capable to assist the workers in this struggle for justice, and be it further,

Resolved, That a committee be appointed or elected who shall present the true facts of this controversy to the people of this community.

CLEVELAND INDIANS ARE IN A BAD WAY

Whole Ball Club Becomes Infirm and Aged.

WHOLE LINE-UP HAS BUT TWO YOUNG PLAYERS

Gardner Slipping and May Not Last the Full Campaign at Third Base.

Dallas, Tex., March 24.—"A good old wagon, but it does broke down."

Reference is made in these depressing terms to the Cleveland Indians. In 1920 they won the championship of the world; in 1921, they were runners-up to the New York Yankees; in 1922—?

Candidly no one knows what the stage of the proceedings, Tris Speaker not excepted.

"If you asked me at this moment, I wouldn't be able to name the men I will keep," Speaker admitted this morning.

"None of the players have been let out, therefore I have no definite idea of the relative value of the new men."

Of the veterans, Speaker appeared more concerned, Larry Gardner? Fine. Larry was in great shape.

"Duster" Mails? Duster should have a big year.

Bagby? Much the same only more so, and so on down the line.

To Speaker they are the same ball players that carried the club to a championship in 1920.

Gardner May Not Last.

And yet the prevalent belief is that they are nothing of the kind. Gardner is slipping. He may last the full campaign at third base or he may not. Bagby had an indifferent year in 1921 and there is no guarantee that he will do better now.

Mails is a left-hander, both off and on the battle field. He had one streak in 1920 when he won seven straight games at the finish of the season and two more in the world's series. Then he came to a full stop and has remained at ease since.

Mails probably has spoken his little piece, so far as consistent pitching is concerned.

The whole ball club has become aged and infirm on Speaker's hands; in fact, the regular line-up contains but two players who can lay claim to youth, namely, Joe Sewell at shortstop, and Jamieson in left field.

The rest of them have been around a long, long time.

Speaker himself is not far from the vague border.

WITH THE PUGS

Gibbons To Meet Greb, St. Paul, March 24.—Mike Gibbons, middleweight boxer of St. Paul, will meet Harry Greb, of Pittsburgh, May 1, at Boyle's thirty acres, according to terms accepted by Gibbons' manager today.

The bout will be ten rounds with no decision. Greb recently won a fifteen-round bout from Gibbons' younger brother Tom, a light heavyweight.

To Guarantee Purses of \$35,000. New York, March 24.—In order to coax Johnny Buff, bantamweight title holder into the ring with Joe Burman, the Chicago bantam's manager, Nat Lewis, announced today that he is willing to guarantee a \$35,000 purse to the champion.

Burman's stock has soared high since he defeated "Midget" Smith here a few nights ago. Both Burman and Lewis are willing, however, that Joe Lynch and Burman should fight for a chance at the title.

BOWLING

Crack Teams To Roll. Toledo, March 24.—Several good teams are scheduled for appearance in the American Bowling congress tournament tonight and some of the leaders may be forced to give way before another twenty-four hours have passed.

Cleveland, Toledo, Racine, Chicago, Louisville, Newark, New Jersey; Allentown, Kan as City, Altoona, Pennsylvania; Albany, Syracuse, Erie, Muskegon, Michigan, and Kokler, Wisconsin, will be among those present.

But one feature marked the rolling of yesterday, that being the establishing of a new world's record in the all-events by Barney Spinnella, of New York City, when he totalled 1,999. He rolled 635 in the five men event, 714 in his doubles and 650 in his singles.

Why Baby Chicks Must Be Fed Carefully

Chicks have powerful digestive organs for quickly converting large quantities of food into body tissues, which results in amazing growth. But these organs are peculiarly susceptible to the effects of improper feeding—the cause of great losses to poultrymen every year.

While opinions of authorities differ as to the ingredients for a good chick ration, they agree very closely as to the chemical analysis required. You will find that Vitality Chick Mash and Vitality Chick Scratch contain the elements which most poultry authorities recommend, and we guarantee that only pure, wholesome ingredients are used.

Make sure of strong, healthy chickens this year by feeding Vitality Poultry Feeds. Ask us for "Chick Insurance."

CHURCH SOCIETY

McWilliams Class Meets.
Mrs. M. M. Barker, Mrs. W. N. Porter, Mrs. Leah Krause and Mrs. Rachel Smith were hostesses to the members of the McWilliams class of Trinity Baptist Sunday-school Thursday afternoon in the church parlors. The literary program was in charge of Mrs. Jennie Kuhn, assisted by Mrs. W. N. Crouse, Mrs. W. N. Porter and Mrs. John Mitchell. During the social hour Mrs. Rachel Smith gave a reading, "Farmer Brown." The hostesses served a lunch. Guests of the class were Mrs. J. W. Stone, Mrs. O. T. Harding and Mrs. C. S. Gillespie.

Lee Street Aid Society.
Mrs. Clinton Lowry entertained the members of the Ladies' Aid society of the Lee Street Presbyterian church Thursday afternoon at her home on Arundale avenue. The time was passed in making comforters and cushion tops and a social hour was enjoyed. Mrs. Agnes Fitzgibbon, of Columbus, was a guest of the society. Refreshments were served by the hostesses. The society will meet in two weeks at the home of Mrs. Herman Gherman, of Scranton avenue.

Preaches on "Baptism."
"Baptism is a command of our Lord, Jesus Christ," Rev. J. A. Persinger said Thursday night at Central Christian church in a revival sermon. "It is an act and can be just as easily understood as any other command given by Him. Jesus had access to Hebrew and Greek and He could have used any one of a number of words, but we find that He used baptism, which means to dip. Sprinkling or pouring will not meet the scripture requirements." This evening Rev. Mr. Persinger will preach on conversion.

Westminster Guild.
Mrs. O. G. Stephenson, Mrs. O. M. Young, Mrs. L. L. Strock, Mrs. Fred E. Springer and Mrs. Clifford Schoenlaub were hostesses to the members of the Marion Chapter, Westminster guild, Thursday afternoon and evening at the home of Mrs. Stephenson, on Mt. Vernon avenue. The afternoon was devoted to sewing after which the hostesses served a tea. Mrs. C. A. Russell and Mrs. E. A. Traphagan were entertained as guests.

During the study hour the treasurer, Mrs. Ray King, gave the annual report showing the society to be in good financial standing. The new study book, "How and Why of Foreign Missions" was taken up and Mrs. Howard A. Stevens gave an interesting review of the first two chapters of the book. The next meeting will be held April 13.

Bennett Street Society.
The members of the Woman's Missionary society, of the Bennett Street chapel held a sewing meeting, Thursday afternoon, at the home of Mrs. J. W. Bower, of Bennett street. The meeting was well attended.

Forest Lawn Aid.
Mrs. James Church entertained the members of the Ladies' Aid society, of the Forest Lawn Presbyterian church, Thursday afternoon, at her home on east Center street. Twenty-eight members were present and the afternoon was passed in finishing garments for the sale. One new member was enrolled. A business meeting of the society will be held in one week at the home of Mrs. Church.

Calvary Evangelical Church.
Last evening, Rev. C. L. Allen spoke on the subject, "A question that every one must answer," taking his text from John 18:17. "Art not thou also one of this man's disciples?"

"This question may be answered in four ways," Rev. Mr. Allen said. "First, some say yes when they ought to say no. You don't need to be in the church to be a hypocrite. There are more hypocrites outside the church than in. Secondly, some say no and say it truthfully. The greater number in all the world belong to this class. More than sixty per cent. of the population of the world does not profess to know Christ. Again some say no when they should say yes. We should not be ashamed to own our Christ. Some rather deny their Lord than suffer persecution. Last are those who say yes and mean yes from the depths of their soul. This is the class the God has to depend on for the building of the kingdom." Class prayer meetings will be held this evening at 7 o'clock. Rev. C. W. Ruhlman will preach this evening.

Ladies' Aid Society Meets.
Mrs. C. H. Lindsay and Mrs. John Battenfeld were guests at the meeting of the members of the Ladies' Aid society of St. Paul's English Lutheran church Thursday afternoon at the home of Mrs. M. J. Wolfe, of west Columbia street. The time was passed in sewing on carpet rag. Arrangements were made for an Easter bazaar sale. The next meeting will be held the fourth Thursday in April.

St. Mary's Sewing Circle.
The work on hand was completed at the meeting of the members of St. Mary's Sewing circle Thursday afternoon in the Knights of Columbus hall. The next meeting will be held in two weeks.

Revival Services at Wesley.
The afternoon service at Wesley M. E. church was well attended.

What Tanlac has done for others it will do for you. Get a bottle from your druggist today.

Thursday, Miss Fanny Banning spoke from Isaiah 40:31, "As a teacher I have given much time to the study of birds and the eagle is the most interesting and in at least one respect the very greatest of them all," Miss Banning said. "The greatness of the eagle is in the fact there is something in the eagle that has a passion for the heights, a passion to mount right up into the very face of the sun. This is the greatest thing about any man or woman—the fact that they have a vision for God, a tendency to mount right up to God, something in the inner life that seems to anchor in God and opens the way for the spirit of God to anchor in that life. Without this you are moving downward. With this you are ever moving upwards." Quite a number were forward when the call was given.

At the evening service the auditorium was crowded to the limit. Miss Banning spoke on the parable of the rich man and Lazarus. "God does not condemn a man because he is rich nor congratulate him because he is poor," Miss Banning said. "There is no merit in poverty."

Tailor Makes Valuable Find.

"After spending \$900 for medicine and doctors in four years without getting and benefit for stomach trouble and bloating I was induced by my druggist to try May's Wonderful Remedy and must say that a \$1 bottle has done me \$500 worth of good." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all druggists.—Adv.

My Marriage Problems

Adelle Garrison's New Phase of

Revelations of a Wife

Copyright, 1921, by Newspaper Feature Service, Inc.

For two seconds, which seemed to me as many hours, after I had climbed into the seat beside Dicky, he stared straight ahead over the wheel with no sign that he had understood the meaning of my little ruse.

I had been mistaken, after all, and did his action in driving me to the station have its roots not in a desire for reconciliation, as I had thought, but in his horror of having outsiders think we had quarreled?

The thought was intolerable and I put my hand on the door of the car with the intention of getting out again, when I felt Dicky's hands on my shoulders, turning me toward him. His eyes looked quizzically down into mine, and then, regardless of possible passing cars, he stooped, kissed me with rough tenderness, gave me a little shake, released me, and turned back to the wheel.

"You little devil!" he said, and the familiar phrase which on Dicky's lips becomes an endearing one, told me more plainly than anything else could have done that the last trace of his anger had vanished. "What you really need is a good trouncing, but I can't spank you properly before your train goes, so you go scot free this time. But when you get back, oh, boy! You're going to get yours!"

"Perhaps I never will come back," I muttered the words lightly, laughingly, thinking only of returning his banter, forgetting the vein of superstition which is concealed beneath Dicky's insolence.

"Shut up!" he growled. "What do you want to spill anything like that for, even in fun? It's bad enough having you start off on this fool trip, without any idea of just where you're going, or how long you're going to be gone. No telling what might happen, I've two notions to put my foot down and say you can't go."

His voice held the rough anxiety which makes any wife's heart leap with the knowledge that it is grounded in deep sincere husbandly affection, and I put my hand over his on the wheel in a light and understanding caress.

"I like to hear you talk that way, Dicky," I said, as I snuggled closer to him. "But that doesn't alter the fact that I simply must go and get Katie back if there's any chance of doing it. And if I can't, I'll just have to go to an agency and bring back the very best possible maid I can, regardless of the price."

"You mean the best three, don't you?" Dicky said. "I have a sneaking idea that you'll find times have changed so much since Katie came to us that it will take a quarter-dozen high-salaried modern work-dodgers to replace her."

"Two dozen couldn't do that," I returned loyally. "So don't discourage me. Just wish me luck instead, and you'll see I'll bring Katie back with me. I don't mind telling you I'd give a good deal to hear her carol, 'All right, Measles Graham I fear,' once more."

"I can imagine it would rival a Gail-Curt solo just about now," Dicky said. "Was that the train whistle? Police!" and he stepped on the gas, sending the car along furiously.

"It's the Sag Harbor shuttle," I said reassuringly. "We haven't any too much time, but we're on the road that goes beneath the tracks, so we won't be delayed. I'm sure we'll make it."

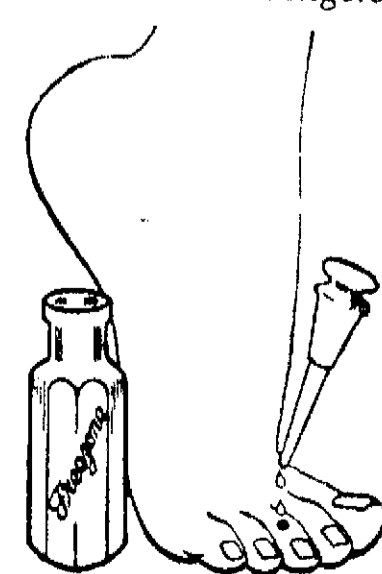

"You can bet we will," Dicky retorted, and we fairly flew down the country road, reaching the tunnel beneath the tracks just as the city train hove into sight.

"No time for a ticket," Dicky drew the car up beside the station, helped me out, and, snatching my bag, ran with me to the chair-car door, and handed the bag to the porter. "Good-by, dear. Be careful now."

"I will," I promised and felt a

MOTHER!

Clean Child's Bowels with "California Fig Syrup"

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile, and waste from the tender little bowels and gives you well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Adv.

Back Weak and Lame for Years

Rub soreness, pain, stiffness right out with a small trial bottle of Old St. Jacobs Oil

St. Jacobs Oil stops any pain, so when your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest St. Jacobs Oil at any drug store, pour a little in your hand, and rub it right on your aching back; and by the time you count fifty the soreness and lameness is gone.

Don't stay crippled. This soothing, penetrating oil needs to be used only once. It takes the "pain" right out and ends the misery. It is magical, yet absolutely harmless, and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache, or rheumatism so promptly. It never disappoints!—Adv.

Getting Rid of a Stubborn Cough is Child's Play Now

Make the Medicine Yourself at Home It's Cheap—but You Can't Beat It.

If you want to take care of the bad, husky cough and do it in a few hours, better get one ounce of Peppermint (double strength) and mix half pint at home.

You can do this in two minutes by adding a little sugar and enough water to fill a half pint bottle.

You'll travel the world over before you get a medicine that will act so surely and quickly on the mucous membrane of the nose and throat. It halts the inflammation, the tickling sensation stops with the first spoonful, the heavy breathing goes and clean membrane, free from irritation and mucus follows.

For catarrhal conditions such as mucus droppings, clogged nostrils and watery eyes, it won't disappoint — ask for Peppermint (double strength). Speak plainly so that the druggist will know exactly what you want.—Adv.

NEED FOR OUR TROOPS GONE.

The necessity for keeping American troops on the Rhine having passed, the war department has ordered the few remaining there to come home not later than July 1. Secretary Weeks, publishing the order, intimates that neither the plans for army reduction nor the controversy over payment for our troops' maintenance about Colmar influenced the department's decision. These latter need not have been considered at all.

The simple fact is that this country participated in the occupation of the Rhineland after there was excuse for being there. Occupation was provided for in the treaty of Versailles as a means of compelling Germany to carry out the stipulations of that agreement. But as the United States is not a party to the treaty it has no legitimate business enforcing its provisions, especially since it has made peace with the Germans without involvement in matters that do not concern it and which it does not approve. But beyond this, the treaty of Versailles, so far as it relates to reparation and other commitments of the defeated nation, is being amended almost from day to day. It has been discovered that the terms which allied and associated troops in the Rhineland were to enforce are not enforceable. Other means than threats of further invasion are being resorted to by England and France to compel the Germans to pay to the limit of their ability. Armies large or small billeted on Germany can do nothing as a collection agency. Germany's power of resistance to force has been destroyed. The British, Belgian and French troops quartered along the Rhine are competent to serve every purpose of the occupation provided for in the treaty. Americans are out of place there.

It is economic pressure that will prove the most effective with the Germans; that and the degree of cooperation that may be found essential to enable them to earn the money and produce the goods they must deliver to the allies. This is recognized by the reparations commission which has drawn up now schedules of payments for this year. The intent is to get from Germany what Germany can pay in place of persisting in threatening her with dire things if she does not pay more than she possibly can. In this circumstance, American troops are called home. It is well.

THEY WON'T BE TAKING THE DOG.

FOR THE GOOD OF HUMANITY.

Out of unhappy Austria, now paying dearly in the reflexes of war, there comes a messenger as though sent from God. He has come to pay in a small way Austria's debt to America for the great service performed by our own good angels of mercy during the great war.

All America knows who this Austrian messenger is, and it seems good to be able to pick out of this war-torn country a man so big that he rises above the common level of his fellow-countrymen.

For Dr. Adolf Lorenz, now in his sixty-eighth year, the American people can but feel the highest admiration for the wonderful service he has rendered in making crippled children whole. Wherever he has been in this country since the close of the war, he has met with success, leaving behind him scores of children and their parents who thank their praises of this bloodless surgeon in songs of joy.

How Dr. Lorenz performs his marvelous cures, his manner and methods can not be regarded as miraculous. They, on the contrary, are simple. Graduating from the University of Vienna in 1880 and, after serving for a time as the assistant of the great Theodor Billroth in Vienna, Dr. Lorenz, upon the advice of Dr. Billroth, began to specialize in orthopedic surgery. Years went by. Always a deep student, Dr. Lorenz kept on studying until—once day the world awakened to losses of successful bloodless surgery, nothing more or less than a method of reducing dislocations and straightening crooked bones without resorting to the use of the knife. His first successes were with reducing congenital dislocations of the hip joints. He was one of the chief exponents of Hoffa's cutting method before he developed his own style of operating. Dr. Lorenz's operation consists of the forcible stretching of all the soft parts about the hip until the head of the bone can be brought to the place where the socket should be, and then holding it in that position and rotating the joint to secure it in the depression of the socket. From six to nine months a plaster cast is then worn by the patient. This simple operation has been performed successfully in a large percentage of all the hundreds of his cases. He has appeared before the medical congress at Berlin, and has given the demonstrations that he is again using to restore children to normality in this country. In all parts of the world. He first visited the United States in 1902. He is a widely-known author on various phases of surgery, a government councillor and a professor of orthopedic surgery in the University of Vienna.

A man is best remembered for his good deeds, his noble works. The name of Adolf Lorenz will live down the ages.

Another sign of spring: Fish are beginning to bite.

Addressing school children a short time ago, Mr. Lloyd George, premier of England, observed that the higher one ascends the heights of fame the colder and lonelier he became. That probably is all very true; still, Mr. Lloyd George seems to be fascinated by the scenery, or something.

TRUE MEASURE OF SUCCESS.

Life is full of misfits. To be happy, men and women who are workers should do that which they like to do. Doing what one likes to do and doing it well—that's success. Men and women who are successful in life have done the things they know best how to do, and usually they liked just what they were doing.

The possession of money can not be termed a true measure of success in the highest sense. Men who have obtained wealth are not truly successful because of that fact. They may be regarded as successes in a business way, but they put something else into their business—an indefinable something that makes for integrity and good reputation. Indeed, as John J. Mitchell, veteran Chicago banker, points out, the measure of a man's success is the proportion in which he has been of value to the world and his fellow-men and women during his lifetime. Broadly speaking, one gets out of life exactly that which he puts into it, and nothing more.

Measured by the modern standards, success too often is placed upon the "almighty dollar."

LIFE'S VAUDEVILLE.

[By Dr. James Ball Naylor.]

THE LEGITIMATE DRAMA.

"Like hungry guests, a sitting audience looks: Plays are like suppers; poets are cooks. The founder's you; the table is the place; The carvers we; the prologue is the grace. Each act, a course—each scene, a different dish; Though we're in Lent—I doubt you're still for fish. Saffron's the sauce, high-seasoned, sharp and rough. Kind words and banter, I hope you're pepper-prot? Your early scenes, where rent and bloodshed join. Are butcher's meat—a battle's a strig; Your scenes of love, so flowing, soft and chaste, Are water-gruel—without salt or taste."

All the world's a stage! And the greatest play in the world is the world itself. The legitimate drama has suffered greatly of late years. It goes without saying, that the pantomimic movie has largely superseded the flesh-and-blood play.

We have accepted the shadow for the substance. Yet the legitimate drama still has its admirers, its patrons, its votaries.

And it would have far more supporters, were it not for the faults of the drama itself—and the faults of those who produce it. We, who love the old-time drama, have been too tame, too servile, too subservient.

We have hesitated to speak out; and, having hesitated, we are lost—or almost lost.

In a recent number of the Billboard, a reviewer for that fair and fearless journal of real criticism and frank opinion, Patterson James, does some very plain and direct speaking. He says some things that should have been said—and said repeatedly—long ago. He shows up the managerial arrogance of today. He reveals the contemptuous disregard that is shown for the comfort, convenience and satisfaction of the theater patrons.

From Mr. James' article I shall presume to quote—and append my own comments.

"If you hiss in a theater, you are an anarchist and hustled off to jail; and if you cheer, you are a law-abiding citizen. There is no reason, in truth or justice or charity, why a man who buys a ticket to see a show should not be as free to express his displeasure as his delight over it."

That seems like a suggestion that the bars be thrown down for disturbance and rowdiness. But is it? True was when theater patrons as frankly and openly expressed their disapproval as they expressed their approval; and that time was the heyday of the legitimate drama.

"If managers will reduce the prices of admission to a reasonable figure, stop playing the whole hog or none, look up some decent plays and refrain from collusion with ticket speculators, the business will be all right."

The trouble with the legitimate drama today is largely the fault of its nature, its management and its production.

JUBILEE'S PARTNER

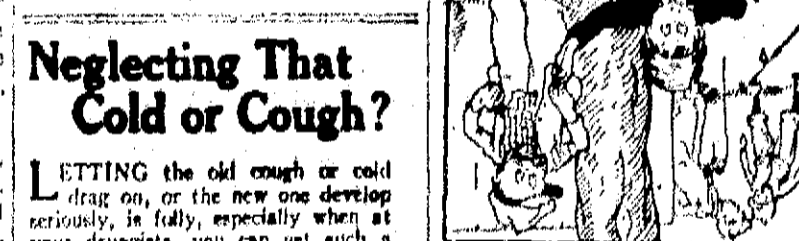

Illustrations by Judd Mortimer Lewis

Friday night. That settles this week as far as school is concerned. I was spent part of the day today writing a letter to the president of the United States. I told him that I was studying to become a pirate when I grew up and that I had not made up my mind yet if I would go to business for myself, or if I would do job pirating for any one that wanted some first class pirating done, and if he wanted to make a contract right away I would rather work for the United States than anyone else.

I said if he wanted to see me about it I could not come to Washington because I had not got to earning anything yet, but he could come here because the people here to pay for everything he does, and if I heard three long whistles and two short ones outside of my house some night I would know it was him, and me, and Jubilee would come down and talk to him about it and no one would know that we had a contract; and then I saw the

teacher looking at me and I rolled it up and put it in my desk. I was going to make out a walk the plank price list and ask him what he thought about half price for teachers and a free list for ants.

When we got out of school String had the first top and he was applying it and would not let me try it. It was a last year's top anyhow. All the fellows stood around and watched him spin it and that made him have the big head. I sat down and had Jubilee lay across my lap and I went looking for fleas. I was going to kill them, but Banty had a bottle in his pocket so we bottled a lot. It is funny how many fleas you can take off of a dog without the

dog minkling them. Jubilee began to scratch what he had left as soon as I let go of him and he got up.

Then we went around to our house, and String talked to my aunt about her singing while I went and put the bottle in her bed with the cork out. If I had been a flea in a bottle in my aunt's bed I would of stayed in the bottle, but those fleas did not have as much sense as I would of had.

I got my windmill all done and Nibs tried one of the blades to see if it was strong and it broke, and I made another one and he tried it and it broke, and I made another one and said for him to try that and we would see if it was as easy to break as his nose. So he tried it and it did not break, but my mother called me to go to the store just then so we did not put it up yet.

The storekeeper watches us close when the whole bunch goes in, but we are not that kind. I went to bed early and pulled Jubilee up. Everybody downstairs went to bed kinds early, and then I heard my aunt fussing and I heard everybody get up. She is not as patient as Jubilee is, and he has got more fleas than she ever saw. I am glad my father does not know how they got there.

That Troops Be Withdrawn from Possessions.

CHAMBER ACTS ON PRESIDENT'S APPEAL

Votes To Eliminate Action in the Army Appropriation Bill.

Washington, March 24.—President Harding and the house today resumed "amicable relations" for a time at least.

Acting on direct appeals from the executive and Secretary of State Hughes, the house appropriations committee declined to insist that the house direct the president to withdraw troops from China, the Philippines, Hawaii and the Panama canal zone.

Votes To Drop Provision. It voted to eliminate a provision requiring this action in the army appropriation bill against which a challenge of constitutionality had been hurled by administration forces and which President Harding told the house was an attempt to usurp his power.

Chairman Anthony, of the subcommittee on appropriations agreed to an amendment offered by Representative Rogers, Republican, of Massachusetts, that the provision would be stricken from the bill.

The committee action was taken partly upon assurances from several members that Secretary of War Weeks had agreed to greatly reduce the troops now in the Philippines, Hawaii, China and the canal zone.

Columbus, March 24.—"The people of this state and nation decided the wet-dry question at the polls," declared Carmi Thompson, Cleveland, prospective Republican gubernatorial candidate, here today.

"The wet-dry question can not become an issue in the campaign except indirectly—through the question of law enforcement," Colonel Thompson continued.

"The happiness and well being of all the people is dependent upon the enforcement of law," he said.

Colonel Thompson's statements were in response to a query as to whether the wet-dry question would become an issue in the Ohio campaign this year as a result of the announcement by Attorney C. Homer Durand, Coshocton, that he will run for the Republican nomination for governor on a platform advocating modification of the Volstead act so as to permit the use of beer and light wines.

Enroute to Wilmington, where he is scheduled to deliver a non-political address tonight, Colonel Thompson conferred with Republicans here who are supporting him in the Republican gubernatorial.

SINN FEINER AND SONS SLAIN

Cold-Blooded Murder in City of Belfast.

WIFE AND MOTHER BEGS SLAYERS TO SPARE MEN

Are Accused of Giving Aid to Irish Freedom Movement. Sniping Continues.

Belfast, March 24.—The murder of Owen McMahon, a Sinn Fein saloonkeeper, and his three sons, while the wife and mother looked on, imploring mercy, was believed today to be only the beginning of a reign of murder in Belfast.

A band of armed men broke into McMahon's home shortly after midnight. The victims were dragged from their beds and lined up against the wall.

Mrs. McMahon, sobbing and wringing her hands, rushed into the room and knelt before the leader pleading with him to spare her husband and boys. The leader gruffly told her to keep quiet and the shooting began. Four of the men were shot to death, but a fourth son and a bartender who roomed at the house, were only wounded. The bartender died later from his wounds.

McMahon was a Roman Catholic and was evidently suspected of giving active support to the Sinn Fein movement in Ulster.

Sniping continues on the "border front" along the southern frontier.

Ulster To Fight Free State.

London, March 24.—Thirty thousand men are reported to have been enrolled in the Ulster special constabulary for service against the Irish Free State troops along the southern Ulster frontier, according to the Westminster Gazette today.

Late advisers said that while there had been no further pitched battles, sniping continues all along the "front."

The government has begun an investigation of a sensational speech made at Belfast by Lady Craig, wife of Sir James Craig, premier of the Ulster unionist government of Ulster.

Lady Craig said that she had been informed by a London friend that 15,000 men in London were ready to take up arms in defense of Ulster.

Detroit, March 24.—"General" Jacob S. Coxe, of Massillon, O., who led "Coxey's army" in the march on Washington in 1894, in the interest of economic legislation he sponsored, is planning to gather followers for another drive on the capital in an effort to induce congress to pass bills he has presented as offering aid in relieving unemployment, he announced here.

Mr. Coxe said he has "four bills in congress, and two more in preparation, which will solve the economic problems of today if congress will pass them." "I am to have a conference next Wednesday on the most important of them—the legal tender money bill," he said. "I have promised the unemployed if this bill is not given proper consideration I will act. I will give congress time enough to consider carefully, then if the bill is not passed, I will issue a call."

Charges Dismissed.

Cincinnati, March 24.—Serious charges filed against William Meyers, fifty-two, by a little girl were dismissed today by Judge Woesta in police court. MERRICK'S PLAN IS TO HIRE AND FIRE

Washington, March 24.—Representative Manuel Merrick, the bachelor member from Oklahoma, who gained notoriety by staging his own beauty contest several months ago, entertained a score of newspaper men on how to secure stenographers.

He said he had employed and fired thirty-one stenographers in the last year.

Some, he explained, were dismissed because they were not attentive enough to business, and others for personal reasons which he did not care to discuss.

Telling his audience he had evolved a new and original plan to solve the help problems in his office, the bachelor member from Oklahoma said:

"I insert an advertisement in the daily papers for a stenographer without giving my name or address. When the answers flow in, I am soon about six at a time and after consideration select four."

No. 1 starts on Monday, No. 2 on Tuesday, No. 3 on Wednesday and No. 4 on Thursday. On Friday I decide which one to employ, and on Saturday I notify the lucky one she has been selected."

Robertson, charged with accepting a bribe, and several local business men and bankers, arrested on indictments that followed a grand jury investigation into county banking affairs.

Governor Robertson was indicted jointly with Fred C. Dennis, former state bank commissioner, and charged with taking a bribe to deposit \$150,000 in state funds in the Guaranty State bank here and to allow the bank to continue to operate after Dennis was said to have found it to be insolvent.

Dennis has not been apprehended. He is wanted on another indictment charging failure to close a state bank after it had been found insolvent.

The state provides imprisonment in the state penitentiary not exceeding 10 years or a fine of \$5,000, or both, for any public officer convicted of receiving bribes. In addition it provides that he shall forfeit his office and be disqualified to hold any state office.

GIRL MAYOR IS GUEST OF CLUB

Talks on Fairport's Needs at a Luncheon.

LITTLE CITY LEADS IN LARGE FAMILIES

Elsie Janis, Actress, Tells of Her War Work Among the Soldiers Overseas.

Cleveland, March 24.—A two-fold attraction brought forth a sparsely attendance at the Exchange Club luncheon in Hotel Statler yesterday, when Elsie Janis, actress, and Dr. Amy Kaukonen, Fairport's girl mayor were guests.

Miss Janis left her "gang" long enough to tell some of her doughnut stories in her customary droll manner and her brief talk made a hit. "I don't make speeches," she said, "mounting a chair. 'I just tell stories. I used to make speeches until I went to war, but I found nobody would listen, so I quit. Maybe you'd like to hear some stories.'"

She then impersonated types of soldiers and their comments. After her speech she was presented a large basket of flowers by the club president, Clifford A. Dunham.

Her Girl Mayor.

Mr. Dunham then turned his gavel over to Mrs. Alvord L. Bishop, who presented Dr. Kaukonen. The girl mayor spoke briefly on problems she has been called upon to meet.

"They are fundamentally the same in the small municipality as in the larger ones," she said. "Fairport has 7,000 people, with probably a larger percentage of children than any other town in the United States."

"We have no playgrounds, no recreational facilities."

"We, like Cleveland, have a beach problem. We are trying to find the solution of these questions, and I believe it can be done. We need to put more social consciousness into public life."

Joseph Remenyi, who recently returned from Europe, analyzed the reasons for the unrest among returned immigrants.

Mrs. A. F. Westgate, president of the Cleveland Federation of Women's clubs, reviewed some of the federation's achievements.
